Re: Freedom of Information Request FOI 4151

We are writing in response to your request submitted under the Freedom of Information Act, received in this office on 13th December 2019.

Your request was as follows:

Please can you tell me how many deaths have been reviewed by the trust or reported to a coroner in the past 10 calendar years where the hospital used a Haemonetics plasma device (any model number) on the patient before they died.

Where the death was investigated please can you send me the report (redacted to remove personal details if necessary) and include the age, gender and diagnosis of the patient. If the death was reported to the coroner please include a copy of their report.

The Walton Centre NHS Foundation Trust records have shown here are details of 8 patients over the past 10 years that have had plasmapheresis treatment using the Haemonetics plasma device before they died. There are no serious incident or RCA investigations related to the death of this group of patients. We do not have access to the coroner reports.

Please see our response above in [blue](#).
