Re: Freedom of Information Request FOI 4987

We are writing in response to your request submitted under the Freedom of Information Act, received in this office on 09th December 2021.

Your request was as follows:

Please list the supplier and system name of all data management systems in use for point of care testing devices within your hospital/trust.

The Walton Centre NHS Foundation Trust use two point of care systems managed by the Neuroscience laboratories which are used for the measurement of blood glucose and blood gas analysis.

Blood Gas:

Werfen host GEMWEB on a trust side server, data is managed via SQL. These results are then interfaced to the laboratory information system.

Blood Glucose:

Roche host COBAS IT1000 on a trust side server, data is managed via SQL.

Please see our response above in [blue](#).

Under the terms of the Regulations, the Trust will licence the re-use of any or all information supplied if being used in a form and for the purpose other than which it was originally supplied. This license for re-use will be in line with the requirements of the Regulations and the licensing terms and fees as laid down by the Office of Public Sector Information (OPSI). Most licenses will be free; however the Trust reserves the right, in certain circumstances, to charge a fee for the re-use of some information which it deems to be of commercial value.
